Lowercase, always

Months and seasons are never capitalized in Spanish: Mi cumpleaños es en marzo.

Upside-down seasons

In Argentina, the seasons are flipped: December is summer, and Profé's childhood Christmases were hot ones. A fun globe moment with your kids.

That MA-sho sound

The Argentine "sh" shows up in mayo (MA-sho) — the same signature sound as amarillo on the colors chart.

¿Cuándo cumplís años? —¡En julio!

"When is your birthday?" — "In July!" The one month every child learns first. (Cumplís is the Argentine vos form.)
